

REMARKS/ARGUMENTS

Applicant thanks the Examiner for the Official Communication of November 3, 2005. In response to the clarity issues identified by the Examiner, we enclose an amended specification.

Amendments

The amendments have deleted sections of the description that refer to figures contained in cross referenced specifications, but not the set of figures filed with the present application. The amendments have also substituted figure numbers into any figure references inadvertently using the pre-filing figure referencing system adopted by the Applicant. Accordingly, the amendments do not add any new matter.

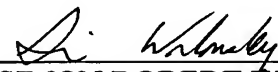

We trust that the specification is now in order and the patent deed will issue in due course.

Very respectfully,

Applicants:
